

Samsung Flip Quick Guide

Dear Guest

For your meeting we would like to offer you the best experience possible. We would like to provide you with the option of using our Samsung Flip 1. The Flip 1 is basically a digital whiteboard, but you can do more than just draw things. You can share your ideas from your smartphone, laptop, or USB device with the Samsung Flip. If you want to know more about the Flip 1 feel free to ask our team.

Parts

1. Pen holder

To change color, you can hold the pen on the screen. If you want to erase your writing a simple wipe with your hand is enough. Please do not apply too much pressure on the pen or the screen may be damaged.

2. NFC pad (Samsung phone only)

Tag your mobile device to the NFC pad for connection to perform Smart view or Screen Mirroring. This function is supported only on Android 8.0 Oreo version or later of Samsung mobile devices.

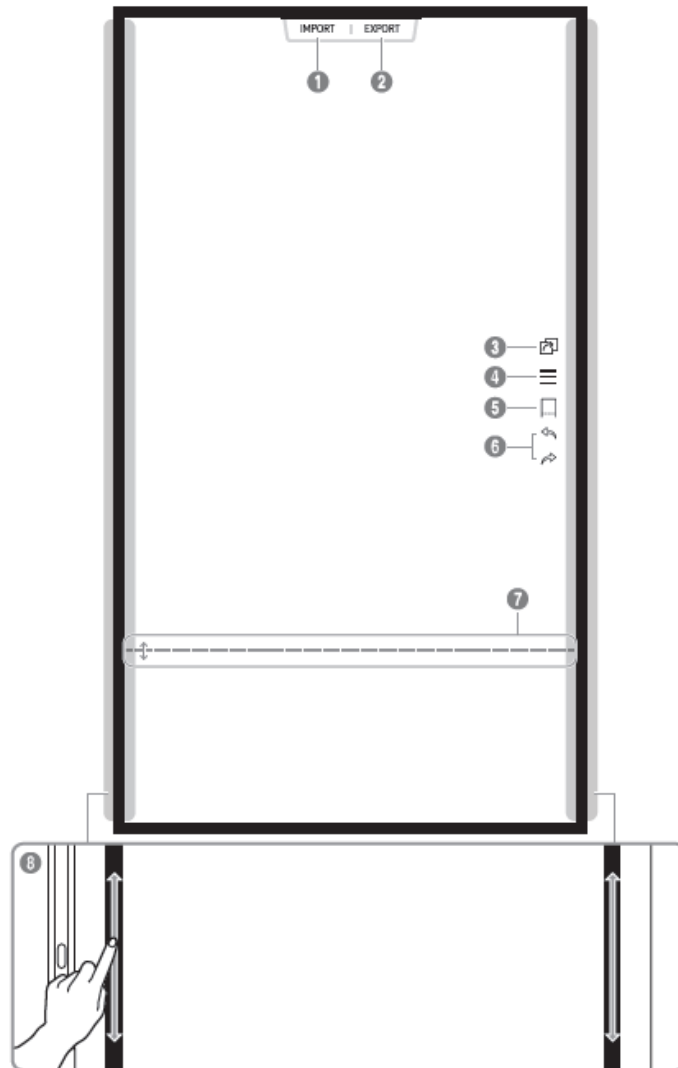

3. Power Button

Press and hold the button to turn off the product.

In writing mode, shortly press the Power button to switch to the screen saver mode. In HDMI or Screen Mirroring mode, press the Power button to exit full screen mode.

4. Motion sensors

Screen Elements

The Screen can be used vertically or horizontally by simply flipping the screen. 1.

View the screen of a mobile device or laptop connected to the product or import data such as images from a connected USB or network drive.

1. Share your creations in various ways
2. Share your screen with selected devices
3. Manage and change the rolls and settings
4. Move or edit the created rolls for each page
5. Undo or redo the last action
6. Scroll the page breaking line to move the roll
7. Scroll the black area to move the roll
